God Made the Stars and Sky

Supplies: star stickers, blue construction paper, white chalk

It's amazing to think that God created the sky and stars! Let's celebrate God's creation by thinking about the night sky!

Create a nighttime sky scene. Put the star stickers on the paper and use the white chalk to create a moon and clouds.

How did God make people differently than light, water, land, plants, the sun and moon, birds, and animals?
